## Honegger, Inc.

My name is Keith Honegger. My company Honegger, Inc. is an appraisal consulting firm with only one employee, me. The primary focus of my company is doing property tax appraisal and consulting for commercial clients who think their property tax assessments are too high. My main clients are property managers of large low-income housing projects in the State of Illinois.

I have been relying on Jerry and his employees at ITA for my computer technology needs for 20 years. There is no one else to rely on in my company to keep up to date on computer technology. I have learned that I can rely on ITA for this service. During times when my computer becomes broken due to hardware or software problems I know that with one phone call I can usually get an answer or diagnosis from Jerry at ITA. My problems are usually solved in hours or at most one day. Since I buy all of my hardware and virus protection software from ITA they are completely familiar with any problems that I might encounter. The service and expertise ITA provides for my company is invaluable and I will continue to do business with them for years to come.
