Professional Consultants & Management, Inc.

brian@pcmstl.com

My name is Brian Brown, and I am the President of Professional Consultants & Management, Inc. Our firm provides a full range of financial services to the small startup firms, to accounting, payroll and income taxes, to preparing a company for sale. We have been in business for over 25 years, and like our clients we own several other small businesses, so we understand the needs and pressures of the small business owner.

In our history we have arranged for two public offering of stock for our clients, as well as the acquisition of SBA financing in excess of \$30,000,000. Our mission is to take care of the

financial side of our clients' business while they focus on operations and revenue.

We use ITA for all of our hardware needs. What we really like about ITA is that they treat their clients like we treat our clients – a complete solution from start to finish. When we order hardware from ITA, they install and transfer all of our software and files for us, without any interruption in the service we provide to our clients.

We first started with ITA over 8 years ago. We had an issue with our server during a major project, and even though we were not yet a client of ITA, they came in on a Saturday and spent hours getting our old system back on line. They were there when we needed them.

We stay with ITA because they are responsive and take care of any issues we have. From setting up our website and administering it, to providing new desktops and server, they do it all flawlessly. We have recommended ITA to several of our

clients, and we do so with knowledge that they will provide a start to stop solution for our small business owners, just as PCM does.

Each and every one of our accountants has owned and operated their own small business. We know what it is like to meet a payroll, to deal with taxing authorities, and to handle employee issues. We know the pressures every entrepreneur faces, and we know the importance of timely, accurate, and understandable financial reporting.

Our promise to you is to provide your firm with high quality, accurate, and dependable financial services. In small business, it is personal. It is you and your family. Get reliable, professionally prepared reports. Do not give your business second best when it comes to accounting.

Professional Consultants & Management provides a full range of financial services to the small startup firms, to accounting, payroll and income taxes, to preparing a company for sale.
