## Tiger Plumbing & Mt. Everest Air

Hi my name is Michelle. I am the Office Manager here at Tiger Plumbing & Mt. Everest Air. We are a plumbing, heating and cooling company. ITA has been doing our computer support and IT work, I think for as long as I have known the company which has been about ten years. They always provide exemplary service and they are very quick whenever we call them and need something. They are always helping us out right away. We have purchased new computers from them. They have built computers for us. They have networked our system. We have purchased a new server from them. In every case products and services that we have purchased from ITA have been very high quality. I would have to say that the biggest asset that we see is that they really help us out and they never make us feel like we do not know what we are talking about. They are just a very good company and I would highly recommend them to anybody who is looking to either get new support or looking for initial set up on their computer, office, or anything.

**Don't be stuck with plumbing disasters! Call Tiger for all your plumbing services, repairs, and replacement needs.
